**Subject:** RE: Permit application - press conference tomorrow

FYI, there was not a demonstration or press conference today outside of DOA because the permit applicants never got a response on their permit application.

Representatives from Clean Water for North Carolina did drop off at the front desk of DOA a report they released today opposing the ACP.

These groups oppose the ACP for a variety of reasons, including insufficient natural gas demand, impacts on native populations and communities of color, and environmental concerns. I met with them on May 10.
